Abed Qwasmi

Junior Front-End Developer | abedalrahmanqwasmi@gmail.com | Jerusalem | +972.53.763.5741

As a junior front-end developer, I've contributed to projects at Plotperty and Getir International, enhancing web interfaces and user engagement. With hands-on experience in WordPress, JavaScript, and modern frameworks such as Node.js, I've helped optimize site performance and reduce load times. My expertise extends to full stack development, with proficiency in tools like Webpack, Gulp, and Grunt for efficient application development. I've actively engaged in CI/CD processes, utilizing platforms like CircleCI to ensure the smooth integration and delivery of code. My commitment to automated tests and end-to-end testing has strengthened the reliability of applications, ensuring robust functionality. I possess a solid foundation in architecture and infrastructure management, having worked on projects involving blockchain technology and cryptocurrency. Moreover, I am adept at state management and have implemented effective solutions for customer success. My proficiency in version control using GitHub reflects my commitment to collaborative development. Additionally, my technical repertoire includes UI/UX design principles, providing a holistic approach to web development. Familiar with web3 technologies, I stay current with the latest advancements in the industry. As a BA Computer Engineering graduate from ISU, I bring a well-rounded skill set and a passion for web innovation to every project. Fluent in multiple languages, I am committed to staying at the forefront of technological advancements, with a keen interest in hardware integration and monitoring solutions.

Experience

Lead Intern Front-End Developer at Plotperty
